## Seamless Transit

The new Vaughan Metropolitan Centre Subway Station is the centrepiece of the City's new multi-modal transportation hub. It includes a passenger pick-up and drop-off as well as connections to the York Region Transit Bus Terminal and the vivaNext Bus Rapid Transit along Highway 7. As

the terminus of the 8.6-kilometre Toronto-York Spadina Subway Extension that connects Vaughan to Toronto, the VMC station has been designed to incorporate green-building practices, high-quality materials, open spaces, intuitive wayfinding and efficient bus-to-subway transfers.
