Harlo Capital is a Toronto based private equity company that takes an analytical approach to select best in class development projects and partners. Since its inception in 2018, Harlo Capital has reviewed over 200 development opportunities and is actively developing 15 projects. The meticulously selected projects are diverse and include, a 26- acre transit-oriented master-planned infill project in the 416; DTK condominiums in Kitchener, which will be the tallest residential building in Kitchener; a 1.5 million SF-4 tower retail mall to residential conversion, at the heart of Hamilton's downtown core; a boutique mid-rise building in King West; and a purpose-built multi-family rental project in Vancouver.

Neighbourhood

Leaside is one of the most popular neighbourhoods in Toronto. In light of its high profile, it is not surprising that Leaside is also one of the more expensive real estate districts in Toronto.

Leaside is in especially high demand with upper middle-income families who value this neighbourhood as an ideal place to raise children. Leaside has abundant greenspace and parkland, a fine selection of schools, one of Toronto's best shopping districts on Bayview Avenue, and excellent access to public transit.
