

Reach for the **Sky.**

One of the tallest residential towers in Canada. Taking Downtown Toronto's skyline to new heights. And reaching the pinnacle of luxury living. The new Toronto landmark—Concord Sky.

Concord Sky's **prime location** on bustling Yonge Street offers convenience as far as the eye can see. Walk and transit scores close to 100 means you are connected to everything, from both the University of Toronto and Ryerson University, to medical centres and research facilities, to downtown's best restaurants and the Eaton Centre, to the downtown office core.

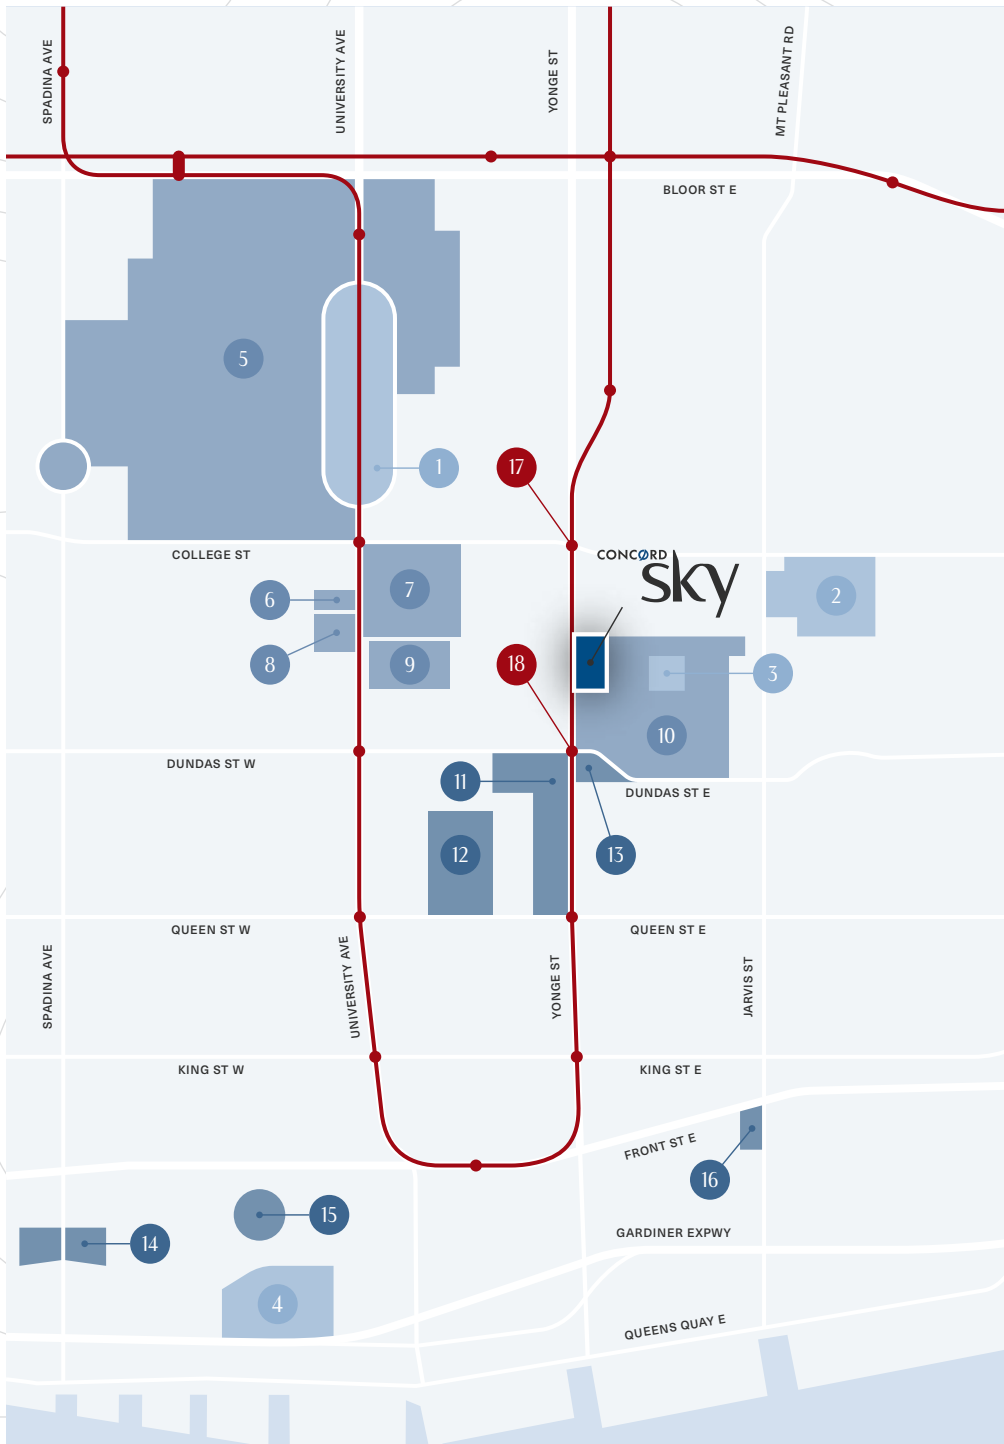

Surrounded by **higher learning.**

Nestled between Ryerson University and the University of Toronto campuses, Concord Sky residents can expect to be immersed in some of the country's finest educational institutions, as well as the country's top medical and research facilities.

Ryerson University is Canada's leader in innovative, career-oriented education. Home to Canada's largest undergraduate business school, the Ted Rogers School of Management, and Canada's third largest undergraduate engineering school, it also boasts the best media school in the country.

A short walk also leads you to the University of Toronto, one of the world's most prestigious universities with over 700 undergraduate degrees and 200 postgraduate degrees. With a longstanding reputation for innovation and research, the university was the birthplace of such ground-breaking scientific moments as the discovery of insulin and stem cell research, and the invention of the electron microscope. The university also cites teaching as a strength in disciplines spanning medicine, business, engineering, humanities, education, and more.

Uniquely designed by world-renowned KPF Architects.

Soaring high at a proposed 95 storeys tall, Concord Sky brings new heights of both form and function to downtown Toronto. World-renowned KPF Architects, who have previously designed some of the world's other tallest buildings – including the Lotte World Tower in Seoul and Ping-An Financial Centre in Shenzhen – have redefined the modern skyscraper once again with expansive glass panels and a unique angular design primed to make Concord Sky a globally recognized presence.

CONCORD
BIOSPACE

Technology Innovation

For Wellness, Safety & Convenience.

As global desire for healthier and hassle-free living environment increases, comes a response where technology and innovative design intersect.

Concord BioSpace is a multi-layered system to deliver cleaner and safer indoor space through improved indoor airflow and filtration in high-traffic areas. Access to major entry points and high-traffic common areas including elevators can be controlled through your mobile phone.

Furthermore, a building-wide water flow detection and remote shutoff system and a comprehensive parcel collection system will facilitate better property management.

Concord has always tried to be industry leaders whether through planning firsts or technology firsts. Their customers are planning for the future and their home is an important investment for most.

Soar above the clouds is your private sanctuary with sky high views. Right above Downtown Toronto yet miles away from the hustle and bustle of the city.

Impeccable finishes

Indulge in beauty and functionality. Kitchen features large format quartz engineered stone backsplash, polished chrome/hard graphite faucet, lacquer/laminate cabinetry with drawer organizers and recessed lighting, complemented by Miele appliances. Custom medicine cabinet with built-in lighting, polished chrome/hard graphite fixtures, large format porcelain tile tub and shower surround add luxury to the bathroom.

Features & Finishes

INTERIORS

- A selection of two designer color schemes:
 - Grigio
 - Crema
- Ceiling height of approximately 9 ft in most living areas (designated areas will include ceiling drops to accommodate lighting and other construction-related features)
- Laminate wood flooring throughout the main living area, bedrooms, den, and closets
- Lacquer/laminate finish closet organizers for major closets
- Roller-shade window coverings in living, dining and bedrooms enhance privacy
- Television and telephone jacks in every principal room
- On-demand heating and cooling system
- Smart thermostat to optimize temperature control, maximize comfort while minimize energy

KITCHEN

- Lacquer/laminate kitchen cabinetry with under-cabinet lighting
- Cabinets feature soft-close hardware by Blum® hinges and tracks for superb quality and durability, a magic corner (where applicable) and a sliding basket under the kitchen sink
- Drawer organizer for cutlery
- Quartz engineered stone slab countertop
- Large format quartz engineered stone backsplash
- Above cabinet LED accent strip lighting and additional track lighting or recessed pot-lights (depending on kitchen configuration)
- Single-bowl stainless steel under-mount sink
- Polished chrome or hard graphite faucet with lever handle and pull down sprayer (depending on color scheme selection)
- Integrated stainless steel Miele appliance package including:
 - Fridge with bottom-mount freezer with integrated panels
 - Under cabinet slide-out hood fan with integrated lighting*
 - Dishwasher with integrated panel*
 - Gas cook-top
 - Wall oven
 - Panasonic microwave installed with trim kit*

*Depending on kitchen configuration, dishwasher and microwave/hood fan may be substituted with other manufacturer.

BATHROOM

- Custom medicine cabinet with mirror, shelves and built-in lighting
- Lacquer/laminate vanity cabinet with soft-close hardware featuring Blum® hinges and tracks for superb quality and durability
- Drawer with built-in organizers (where applicable)
- Engineered quartz stone countertop
- Kohler® under-mount sink
- Polished chrome or hard graphite plumbing fixtures (depending on color scheme selection)
- One piece elongated dual flush toilet with quiet-close seat
- Recessed or surface-mount lighting provided
- Soaking tub (in select layouts) with spout, shower faucet and pressure balancing valve
- Walk-in shower stall (in select layouts) enclosed with frameless glass with door and hand-held sliding shower head
- Large format porcelain tile flooring and tub/shower surround

LAUNDRY

- Stackable or side by side Miele front load washer and energy-efficient heat pump dryer
- Customized built-in shelving (where applicable)
- Porcelain tile flooring

Canada's largest community builder.

CONCORD

For three decades, Concord has set innovative standards for master-planned communities Canada wide. From Concord Pacific Place in Vancouver and Concord CityPlace in Toronto, to North York's Concord Park Place and Calgary's coveted new neighbourhood. Concord has further expanded with numerous large-scale master-planned communities across Canada and is now developing in the UK and the USA.

To learn more about Concord's international presence, visit ConcordAdex.com

Committed to community.

Beyond building homes and contributing parks, recreation facilities, amenities, school sites, seawall walkways and daycares, Concord infuses over \$2 million dollars annually into the communities they develop in through family-oriented events and charities.

Our claim to fame.

- ❖ Concord has built over 40,000 homes globally.
- ❖ In the last 5 years, Concord has been building at a pace of over 3,000 units per year.
- ❖ Concord has developed almost 150 towers to date.
- ❖ Concord is the largest contributor of public parks in Canada. Concord has constructed 70 acres of park and public space and 30 more acres will be constructed in the near future.
- ❖ Concord has contributed \$20 million back to various events, housing, programs, and charities over the last decade.
- ❖ Concord has Canada's largest privately funded public art portfolio.

Creating livable, green communities.

Livability and green living is threaded throughout every level of a Concord community. Concord recognizes that transportation and temperature control are the largest energy draws in its communities. Their focus is to design green communities of scale and infrastructure that reduces energy usage while at the same time supporting the green energy grid.

- ❖ High-density master-planned communities connected to cities and mass transit greatly reduce transit congestion and carbon.
- ❖ Elevators and walkability replace thousands of single vehicle trips a day in Concord communities.
- ❖ High-rise building with hundreds of homes share walls managing heating and cooling far more efficiently than single-family homes.

Concord takes this philosophy further in its current and future communities by:

- ❖ Supplying smart building systems to make its buildings more energy efficient.
- ❖ Pioneering in residential EV parking infrastructure, setting new benchmarks in North America.
- ❖ Building and developing Concord Green Energy Power projects that offset the energy usage of our buildings many times over.

Concord created Concord Green Energy to explore and support a variety of zero carbon energy producing projects. Concord Green Energy has projects of scale in wind, solar and hydro at various stages of planning, development, and operation across Canada.

- ❖ Concord Green Energy generates more than twice the energy to power all of Concord's 40,000 homes.
- ❖ Concord is the first in North America to provide 100% high speed EV infrastructure.
- ❖ Amisk is the largest planned hydroelectric project in Alberta's history.
- ❖ Red Lily is the largest independent wind power project in Saskatchewan and will contribute significantly toward Canadian carbon reductions.
