Forward-thinking and urban-minded, with an understanding of how progress, architecture and community meld, Malibu has claimed its place in Toronto’s ever-changing skyline. For almost two decades, its iconic buildings have enhanced the character of neighbourhoods where they rise while providing residents with modern amenities that complement their lifestyles.

Malibu’s developments have been the catalyst in the rejuvenation of many neighbourhoods. From Malibu Harbourfront and LTD Condominiums in the Fort York neighbourhood to Smart House in the downtown core, to Boutique Condos and Tableau in the Entertainment District, its residential designs are distinctly urban. Beginning with Gramercy Park in the Wilson-Tippett community, followed by Southside and Express, Malibu's ongoing revival of the neighbourhood continues with Express 2.

Infusing quality construction with smart urban design, Malibu has set the highest standards for all of its developments.
