2. Ranked Among Hamilton's Top Neighbourhoods

There are over 100 communities in the city of Hamilton. Corktown is one of the original four communities established and ranked:

#1 Neighbourhood to Buy in 2019

#2 Most Liveable Neighbourhood in Hamilton

3. An affordable Alternative

The Gap between the Average Home Price and the Average Condo Price is significant.

Average Home Price Hamilton (Feb 2022)- \$1,134,153

Average Condo Price Hamilton (Feb 2022) - \$606,728

Affordability concerns continue to fuel demand and drive an increase in prices. Only 4 condo projects have been launched in Central Hamilton in the last 3 years.

Corktown will be among the first of a much-needed supply call of homes in a rapidly growing city.

4. An Established Neighbourhood, Part of a Transformation

Surrounded by beautiful Victorian homes and lush treetops to the south, only steps to big city amenities, Corktown offers residents a big city lifestyle with open, expansive views and a neighbourhood feel.

With over 10,000 units proposed in Central Hamilton, and over one billion dollars in investments, including bringing better transit to its doorstep, Corktown is at the heart of Hamilton's ongoing growth.

Already a Flagship Community, Corktown will continue to be one of the most sought-after neighbourhoods as it grows, modernizes, and transforms.
