Drop ceilings and bulkheads will occur to accommodate mechanical, HVAC systems and structural requirements. Finished floor height and built-in noise attenuation measures may cause ceiling heights to be lowered in some areas.

\*1 (As per plan, may vary due to bulkheads, dropped ceilings, structural components, and mechanical components).\*

Pre-selected Designer Finish Packages are Builder's standard and are pre-arranged in coordinated design packages. No mixing or substitutions of samples between or outside of coordinated packages may be permitted. Some items may be upgraded for an additional fee.

The Builder is backed by HCRA (Tarion) home warranty program providing:

- One-year warranty on all materials and workmanship.
- Two-year warranty on plumbing, heating systems, electrical systems and building envelope.
- Seven-year warranty on major structural defects.
- Purchaser agrees to pay the Warranty fee on closing as an adjustment.

All interior floor finishes, wall finishes, and materials are to be chosen with assistance of the Builder's interior design consultant. All materials and other selections for which Purchasers are entitled to make a selection are to be chosen from the Builder's samples and are per Builder's specifications. Purchasers shall only be entitled to make such selections provided that the items are not already ordered or installed. Materials, specifications, features and finishes are subject to change and any substitute changes are to be of comparable quality. February 2022. E. & O. E.
