CONNECT TO THE *smart side* OF THE STREET

A carefree, car-free, connection that gets you where you want to go with ease!

As Calgary's only multi-family, master-planned community with direct access to the LRT, it's time to say so long to traffic jams, finding parking spots, and rushing to get where you're going.

Whether heading downtown for a shopping spree, meeting friends for dinner, catching a concert, or commuting to work - there's nothing quite like a leisurely 5-minute walk to hop on the CTrain to enjoy an effortless ride to anywhere in the city.

Beyond the convenience, this hassle-free connection delivers a quality of travel that saves you time, money, and makes Mother Nature smile.

Connection

With Fish Creek-Lacombe LRT just 5 minutes away, the question isn't how you'll go, but where.

An intelligent move.

At Fish Creek Exchange, Graywood Developments is creating more than a collection of homes – this is a community that inspires residents to live happy, healthy, and full lives.

Shouldn't a home be both a place to rest your head and a rewarding investment? That has been Graywood's philosophy for over three decades. As a Toronto-based private investment management company that specializes in the development of real estate properties of exceptional quality, we have a keen eye for how and where people want to live, and we work hard to ensure that our purchasers are making the right investment, both personally and financially. From our home base in Toronto, we have developed an impressive portfolio of single-family homes, townhomes, boutique mid-rise condo buildings, and high-rise towers throughout North America. From the landmark Ritz Carlton Hotel and Residences, Toronto to notable communities like Ocean Club, The Mercer, Five St. Joseph, Peter and Adelaide, Scoop, Scout, Wonder Condos, JAC Condos, as well as Fish Creek Exchange, First & Park and The Theodore in Calgary, we believe in developing spaces that are not just optimized for life today, but built with a vision of a prosperous tomorrow. Because if a home is one of the biggest investments you'll ever make, shouldn't your real estate developer also be an investment expert? We think so. And that's why we're both.
