

Las Iguanas Golf Club - Cap Cana

Las Iguanas Golf Club - Cap Cana: In addition to the Punta Espada Golf Club, the masterplan for the Cap Cana resort includes a second Jack Nicklaus design, to be called Las Iguanas. As far as we know, construction of this second course has not yet commenced. CHECK FOR CURRENT STATUS with the club.

Las Iguanas has been designed as a second layout to complement the now established oceanside Punta Espada course. It gives the Cap Cana resort area two Nicklaus Signature layouts. The new layout presents an eclectic test with three oceanside holes (12 thru' 14) hugging the rocky shoreline.

Las Iguanas will challenge your golfing skills in a mainly open-parkland setting, where water hazards are deployed and bunkers crafted in true Nicklaus style. Part of the course skirts a nature preserve marked by indigenous vegetation, wetland settings and caves that shelter iguanas and other native wildlife.
