

543 RICHMOND

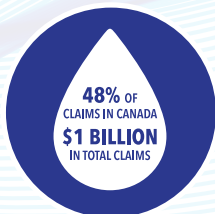

RESIDENCES AT PORTLAND

Worry-free Eddy Smart Leak Protection has been installed in your 543 Richmond Condo

Eddy is your first line of defense, protecting you and your neighbours from devastating and disruptive water damage.

Did You Know Water is the biggest risk to your condo?

Here's what the Eddy Solution will do for you!

**Protection from
your biggest risk**

**Detection
of leaks**

**24/7
Monitoring**

**Potential
insurance savings**

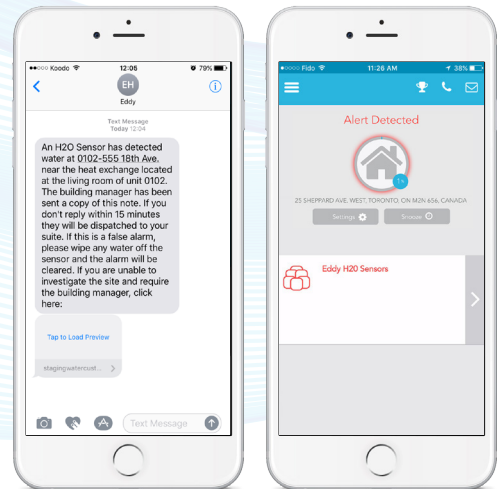

543 Richmond has been equipped with Eddy’s award winning intelligent water monitoring/ leak protection technology to ensure that the risk of water damage is mitigated. The solution includes overall protection on the building’s main feed and boiler system, as well as common areas. In your suite, sensors are placed in high risk areas and near water sources to immediately detect leaks and notify you and property management. In addition to protection, you may be eligible for a discount from your insurance company.

Eddy protects your unit against water damage with our H2O sensors.

Our 24/7 monitoring solution alerts property management of issues so they can take steps to remotely prevent water damage.

The instant an issue is detected, you will receive a notification via an **SMS alert** or you can access and view the alert from your **My Eddy Home App**.

ABOUT EDDY

Eddy is revolutionizing protection, with an award-winning solution that addresses the number one risk to properties head on – not just alerting you to a problem, but taking action. Eddy helps to connect, protect and conserve, keeping you informed and bringing you closer to the things that matter most, from anywhere you are in the world!
